- Eraco brand products are successfully coupled to the systems in studies on ambient air quality, especially in comfort applications. Air and water-cooled chiller units, heat-pump devices, free cooling products and rooftop devices are the main products produced and put into use in this area.

Cargowise - Uniforce

September 2022 — January 2023

Front End : windows service in asp.net

Back End : SQL Server , C#

- CargoWise One is a cloud-based logistics management software platform designed to help logistics companies manage their operations, including freight forwarding, customs clearance, warehousing, transportation, and accounting. Uniforce is a CargoWise One module that provides a range of additional features and functionalities to help logistics companies streamline their operations and improve efficiency.

Cargowise-Fiton

August 2023 — October 2023

Front End : windows service in asp.net

Back End : SQL Server , C#

- CargoWise is a logistics management software that helps freight forwarders and logistics companies manage their operations efficiently. One of the key components of CargoWise is the Fiton application, which is designed to work on Windows servers.
- Fiton is a service that runs on a Windows server and allows CargoWise to communicate with other systems and applications. It provides a bridge between CargoWise and other systems, allowing data to be exchanged seamlessly. This can include exchanging data with other software applications, or integrating with hardware such as barcode scanners or RFID readers.
